

BUFFALO LIVESTOCK AUCTION

Calf Special-Monday, Oct 6,2008 676 head

Today's calf special was our first test of the season on calves. The Dow down by 800 points and the fat and feeder boards both closing limit down certainly did not add to buyer confidence. High input costs and confidence in the economy are having a large impact on the market. The plain calves and those with no vaccination history are the hardest to sell.
